

PLUSPTT M327

USER MANUAL

Dear Customer,

Thank you for preferring PlusPTT products. Manufactured with the highest quality and the cutting-edge technology, our product aims to provide you the optimal efficiency. Please read this manual before using this product and keep it to serve you as further reference. This Manual has been drawn up for informational purposes only. The entire information presented herein is subject to amendments without further notice. Idearge is not responsible for any amendments, direct or indirect damages arising from or related to the use of this manual.

Idearge, Idearge logo, PlusPTT and PlusPTT logo are the trademarks of IDE Inovasyon Arge Yatırım Danışmanlık San. Tic. A.Ş.

SAFETY AND REGULATORY INFORMATION

- Do not open the device without authorization or alter any of its components. Interventions made without proper technical training violate the Push-to-Talk device's warranty and run the risk of doing irreversible harm.
- Please use within the specified voltage range (12V-24V).
- Do not operate the product in a location containing fuels, chemicals, explosive atmospheres and other flammable or explosive materials.

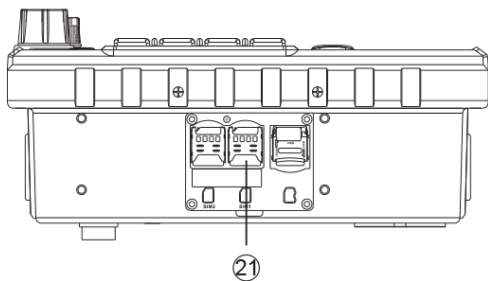

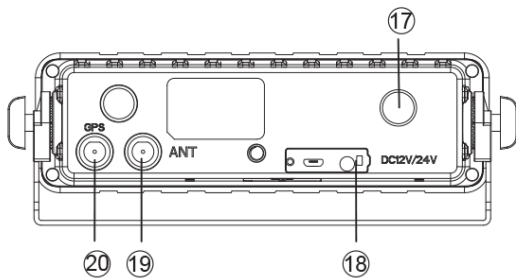

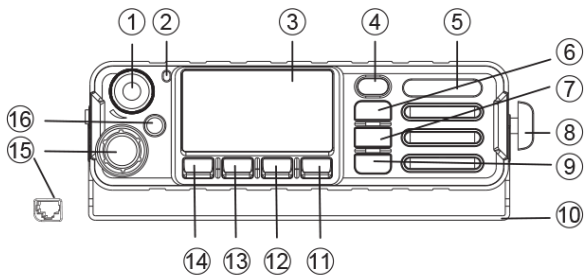

SAFETY AND REGULATORY INFORMATION

- Do not use the device in any hazardous areas such as gas, dust, steam, etc.
- Please turn off the device while refueling.
- Avoid exposing the device to sunlight for a long time.
- Avoid leaving the device in extremely dusty or humid areas for a long time.
- Do not place the device near heat sources or fire sources such as electric heaters, microwave ovens, ovens, water heaters, stoves, candles, or other places that may generate high temperatures.
- Do not adjust the product during driving and pay attention to road conditions.
- Do not use any unapproved, damaged accessories or incompatible power source, which may cause fire, explosion or other hazards.
- Please use only approved accessories. Using other unproven accessories and causing accidental damage will void the warranty.
- Before cleaning and maintaining the device: please stop working, turn it off and disconnect all connections from other equipment.
- When cleaning the dust, please use a soft brush and neutral detergent (do not use strong abrasive chemicals) to wipe it.
- Please keep the equipment and accessories dry.
- Do not use microwave oven, hair dryer or other heating device to dry the device.
